## 📄 PROFILE

To work and learn in an environment where I can utilize my technical competencies in the area of remote work and quench my thirst of curiosity with research and hands on experience.

- **LANGUAGES:** I am proficient and fluent in **English and Hindi**

## 🏠 PROFESSIONAL EXPERIENCE

**Vega6 Webware Technologies Pvt. Ltd.** ✨,  
Full Stack Developer  
02/2025 – Present | Noida, India

**Director General Armed Forces** ✨,  
Full Stack Developer  
12/2023 – 02/2025 | Delhi, India

**Aveti Learning,,** Software Developer Intern  
02/2023 – 05/2023 | Bhubaneswar Odisha, India

## 📄 CERTIFICATES

**Aveti Learning Pvt. Ltd.**  
Internship completion letter

**Python Programming – A Practical Approach**  
Indian Institute of Technology, Kanpur (Offline).

**Ethical Hacking** ✨

**Getting Started with AWS DevOps** ✨  
DevOps Fundamentals: Understanding the Basics

## 🔗 REFERENCES

**kalyani Mohapatra** ✨, HR,  
Aveti Learning Pvt. Ltd.

## 🎓 EDUCATION

**A.K.T.U** ✨, Krishna Engineering College / B.tech

2020 – 2024 | Ghaziabad, India

**DIVISION AWARDED : I-DIV WITH DISTINCTION**

**ST. TERESA SCHOOL - : XII** ✨

2019 – 2020 | Ghaziabad, India

**Marks: 9.06 CGPA**

**ST. TERESA SCHOOL - : X**

2018 – 2019 | Ghaziabad, India

**Marks: 9.1(CGPA)**

## 🧠 TECHNICAL SKILLS

**Front End** - — HTML,CSS,JavaScript,ReactJS,Redux ,Redux

Toolkit,Bootstrap/MUI,Etc | **Back End** - — MySQL ,SQL

SERVER,SQLITE,ACCESS DB,Firebase,MERN Stack,Postman,NodeJs |

**Programming Language** — Java,Javascript

## 📁 PROJECTS

**Viblo** ✨, Viblo- AI-Powered Video Creation Platform

02/2025 – 08/2025

(Node.js, Express, FFmpeg, AWS, OpenAI) *Architected and developed a scalable, high-concurrency Node.js backend to power an AI-driven video creation platform from scratch.*

- **Scale & Uptime:** Built event-driven, non-blocking APIs supporting 400,000+ users or 15k+ active creators for TikTok, YouTube Shorts, and Reels without main-thread latency.
- **AI Integration:** Orchestrated complex pipelines using OpenAI, Fal.ai ✨, and AWS (Polly TTS, Transcribe, Textract) for automated script generation, voice cloning, and text-to-video capabilities.
- **Media Processing Pipeline:** Engineered a detached child-process architecture using fluent-ffmpeg and Remotion to handle heavy, concurrent video rendering and auto-highlight generation.
- **Observability & Real-Time:** Implemented WebSockets (ws) for live rendering progress updates, coupled with custom query performance monitoring and memory tracking to prevent heap crashes.
- **Monetization & Management:** Deployed secure, raw-body parsed Stripe webhook listeners to automate monthly/yearly subscription lifecycles, free trials, and a custom affiliate program.

**Portfolio** ✨, (REACT, HTML,JAVASCRIPT,SCSS)

- **Link :-**<https://divyanshu-jam01.netlify.app/> ✨
- I have created a professional portfolio website using React and SCSS to showcase my expertise, skills, and project accomplishments.

## 🧩 PREMIER CLIENTS MANAGED

**Director General, Armed Forces** ✨, (DG AF) onsite

12/2023 – 01/2025 | sarojini nagar, India

Developed a full-stack HR and officer portfolio system for the **Army, Navy, and Air Force**, improving efficiency by **75%** and reducing manual work by **85%**.

- Built from scratch (frontend + backend) with scalable database and secure networking
- Collaborated with tri-service teams for seamless integration
- Delivered **on time and within budget**, under supervision of **DCYA**
- Received formal appreciation and timely compensation for successful delivery

**Google, C.R.M**

worked as junior full stack developer(Frontend) and made C.R.M using React and SpringBoot
